

Loft Design Marketplace

Overview

Loft Design Marketplace is a centralized B2B2B2C e-commerce ecosystem designed for the interior design, furniture, decoration, construction materials, sanitary products, lighting, and home improvement industries.

The platform allows:

- Loft Design to sell its own products.
- Suppliers to submit products.
- Affiliates to create branded storefronts.
- Semi-Affiliates to create secondary storefronts.
- Customers to purchase without creating an account.

Loft Design remains the central marketplace owner and controls all products, orders, approvals, commissions, and workflows.

Business Model

Marketplace Owner

Loft Design is the platform owner and marketplace administrator.

Responsibilities

- Product approval
- Supplier approval
- Affiliate management
- Semi-Affiliate management

Pricing Model

Example Product:

Chair

Supplier Wholesale Price:

25,000 DZD

Supplier Suggested Retail Price:

40,000 DZD

Loft Design Wholesale Price:

35,000 DZD

Loft Design Retail Price:

40,000 DZD

Affiliate Wholesale Price:

38,000 DZD

Affiliate Retail Price:

40,000 DZD

Semi-Affiliate Wholesale Price:

39,000 DZD

Semi-Affiliate Retail Price:

40,000 DZD

Profit Distribution Example

Customer buys:

1 Chair

Retail Price:

40,000 DZD

Supplier

Receives:

25,000 DZD

Loft Design

Profit:

$35,000 - 25,000 = 10,000 \text{ DZD}$

Affiliate

Profit:

$38,000 - 35,000 = 3,000 \text{ DZD}$

Semi-Affiliate

Profit:

$40,000 - 38,000 = 2,000 \text{ DZD}$

Total Margin

15,000 DZD

Order Workflow

```
graph TD; Customer --> AS[Affiliate Store]; Customer --> SAS[Semi-Affiliate Store]; AS --> OC[Order Created]; SAS --> OC; OC --> SOV[Store Owner Validation]; SOV --> AV[Admin Validation]; AV --> SFR[Supplier Fulfillment Request]; SFR --> Shipping; Shipping --> Delivered;

Supplier Analytics

- Product sales
- Revenue
- Inventory movement

Affiliate Analytics

- Orders
- Revenue
- Profit
- Semi-Affiliate performance

Semi-Affiliate Analytics

- Orders
 - Revenue
 - Profit
-

Core Principle

Loft Design is the central marketplace owner and controller.

- Suppliers provide products and inventory.
- Suppliers do not have public storefronts.
- All supplier products require admin approval before publication.
- Affiliates create branded stores and resell products.
- Semi-Affiliates create secondary stores and resell products.
- Customers can purchase without creating an account.
- Loft Design controls all products, orders, approvals, commissions, and financial flows across the entire ecosystem.

The platform follows a centralized marketplace model with decentralized sales channels.
